

2025 EXECUTIVE DEVELOPMENT PROGRAM

A 12-month program designed to motivate and accelerate the development of Northwest bankers

2025 Executive Development Program

Senior executives at WBA member banks tell us how hard it is to find middle- and upper-management talent. This talent gap constrains the success and growth of many banks. The Executive Development Program (EDP) is a proven tool, designed to help you grow the talent within your organization to fill that gap and move it forward.

The EDP is an intensive, year-long program designed to challenge and develop your most talented up-and-coming managers. Class sessions led by seasoned professional instructors help them acquire the strategic, financial management and communication skills required for successful leadership of financial institutions in today's demanding marketplace. Homework is required between sessions, and

participants work with a mentor from within their banks, adding an additional dimension that is truly unique in our industry.

Feedback from more than 450 graduates and executive management continues to be strong. They report that those successfully completing the program are ready to take on broader job responsibilities and make a larger contribution to their bank's success. They're also well-prepared for additional professional development, such as Pacific Coast Banking School. When it was created 16 years ago, the EDP addressed a critical need for executive development, with each class building on the success of prior years. We expect 2025 to be no different.

The 2025 EDP will feature a mix of in person and virtual classes, while also providing valuable in person networking and engagement.

We understand your need to continue growing the talent within your bank. The Executive Development Program will help you do just that.

Glen Simecek
Washington Bankers Association
President and CEO

Why does your institution exist? What purpose, mission, or vision is your organization seeking to execute? Most importantly, who are the leaders who will answer those questions today, tomorrow, and beyond? Our industry is the midst of tumult and change unprecedented in the last century. The leaders we need in banking must have the skills to inspire their team's confidence, attract and retain talent, increase customer satisfaction, and maintain and grow bank profitability.

As your institution has evolved, so too has the association. We cannot afford to coast on past successes in the ongoing race for relevance. EDP represents a progressing vision, with explicit recognition that *"what got you there won't keep you there"*; innovation, change, and response to the ever-shifting market are as

critical to association education as they are to your business

Whom do you want to represent your institution to the world? EDP is where they will gain the skills they need to be that person who embodies the best of what our industry is and can be.

Rebecca Williamson, SVP, Human Resources Manager, Commencement Bank, Executive Development Program Graduate

EXECUTIVE DEVELOPMENT PROGRAM MENTORSHIP PROGRAM

A unique aspect of the EDP is the mentorship program. It was designed to pair EDP students with an executive mentor from their bank who works with them on a monthly basis to reinforce the classroom learning experience, introduce them to key executives at their institution, and match them with business experts for assistance in their homework preparation. All students are required to have a mentor during the program; they are expected to interact frequently with them and to use them as a sounding board to assist in understanding topics that may be outside their current knowledge base. This is one of the few banking-related executive development programs in the country where mentor and mentee are partnered to ensure the most complete development of the student.

Find out who these oversight agencies are, how they measure your bank's overall health, and how they audit your bank. As a future leader of a bank, you will need to understand what the consequences may be if your bank is unable to comply with the standards set by your oversight agency.

Session Objectives

- Review the history of banking problems and how the regulatory agencies are structured
- Explore the different ramifications when a bank falls outside the safe and sound criteria rating

2025 Executive Development Program

WHO SHOULD ATTEND?

This program is designed for self-starters, bankers who want to proactively direct their own careers. Group study exercises and activities promote a team-learning environment where the focus is more than just on the individual but on the 'we' as a team, where everyone works together to achieve a common goal.

This executive-level program appeals to critical thinkers who want to challenge their understanding of the banking industry, who are eager to learn and share their newly discovered knowledge in better serving their organizations.

This program is designed for those:

- Motivated and driven to succeed
- With at least three years in a management position or equivalent banking experience
- Key producers that a bank wants to retain for the long term and develop for significant leadership roles
- High-potential employees poised to move into new positions
- Anyone considering attending Pacific Coast Banking School would find this an excellent precursor

COST FOR PROGRAM

Registration forms must be received by December 23, 2024.

Members of the Washington Bankers Associations: \$4,500 per student

Non-Members: \$7,000 per student

ATTENDANCE

Attendance is required at all 12 sessions. We recognize that certain absences cannot be avoided and will approve missed courses on a case-by-case basis. It is still expected that all course work be completed for any missed class. In order to complete the entire program, there can be no more than two absences.

It is each student's personal responsibility to attend all scheduled classes and events, complete all homework assignments, and fully participate in all group assignments and team building exercises.

In-person sessions are held in downtown Seattle, while virtual classes will be held on Zoom.

HOMEWORK

Participants are required to complete 6-8 hours of homework prior to each class. This prepares them to best understand the topics, challenges them to be proactive in their learning, and to seek out the advice of key individuals within their own institution when needed.

After completing their individual assignments, the participants then confer with a diversified study group (bankers with differing skill sets) within their class to compare notes and learn how their peers approached the questions.
